[www.linkedin.com/pub/bradley-lyon/0/ba1/395](http://www.linkedin.com/pub/bradley-lyon/0/ba1/395)

My name is Bradley Lyon; I am a production graphic artist looking for a position with my skills in graphic design, marketing, client success, training, project coordination, communications, and problem solving.

In the next years, I would like to be an integral part of the growth of a business. The requirements listed in your job posting match my experience and skills.

I have over 25 years of experience in graphic design and desk top publishing. I have achieved proficiency in Adobe PageMaker, Quark Xpress, Adobe InDesign, Adobe Photoshop, Adobe Illustrator, Adobe Acrobat, Microsoft Publisher, and Microsoft Office.

I am a team goal oriented leader. I have excellent communication skills, both verbal and written. I have helped build businesses, most recently helping to build a 5MM a year business into a 20MM a year business in less than 5 years.

I understand the pressures of executing processes accurately and on time. I make sure schedules are written and followed.

I believe that to accomplish a task, complete concise communications is necessary. I have written procedures for printing production and communicated to my co-workers on the implementation.

I am an analytic thinker and a proactive problem solver. I solve problems by getting to the roots. I understand that in the printing process there are many steps that must be completed before the next step can begin. I have analyzed the departments and determined what procedures best enhance the transitions between them.

I am motivated by both the challenge and the success.

If you are looking for a person with the right mix of maturity and experience with up-to-date technical skills, I am that person.
